Editorial Report....

VIBRANT (Bringing education to life)

Vibrant means "Vigorous and animated, active and energetic".

What do we mean when we say that "we want to bring education to life" By "vibrant" we mean living. we desire to see education changing life and make it vibrant. Knowledge is power. It is the power for transformation in our society. We want to see power of education as a vibrant force in each of our lives. We must bring the knowledge we acquire on those people, areas and issues in our society by making it practical and bring change. Paul chase, a mentor and teacher once said "If you can't explain it to a little child, you don't understand it yourself."

When minds are educated, people change and when people change, society change. One good sign of change in society is development. Ultimately, it affects the lifestyles of the people and everything becomes alive.

Therefore, through this Vibrant magazine, we attempt to make a difference in the way people understand education and learning.

This edition features stories, articles, information and humours that are fun and vibrantly educational.

I would like to thank the Chairman of UCTE, the Administrator, HOD, Teachers, Sponsors, R. P. Printers, the contributors and especially, the editorial team for all their selfless labour, co-operation and contribution towards the making of this magazine.

"Education is not a preparation for life; education is life itself" John Dewey.

"The highest education is that which does not merely give us information but makes our life in harmony with all existence" Rabindranath Tagore.

I'm hopeful that through this edition, our readers will be inspired to see education with a vibrant outlook.

Happy reading.....
